

25X1

Copy 6 of

2 August 1956

MEMORANDUM FOR: Lt. Col. Leo P. Geary
Air Force Project Officer
AFCEG - Hqs USAF
Room 4E-1065, The Pentagon

SUBJECT : AMS Data Program

1. Reference is made to your memo, same subject dated 26 July 1956.

2. The method of handling AMS data which you propose in the above reference is approved. For your information procedures used to transmit data from the Squadron to Headquarters differ somewhat from those listed in Par 2A. I plan that the tracking film will go first to Eastman for printing of every other frame on the turn around printer after which positive prints will come to Headquarters, thence to [redacted] This must await the readiness of the printer however.

3. I recognize that GFD has not had an opportunity to examine the data yet. As soon as they have been able to study an adequate amount of data I would appreciate their comments on the research which they will be able to perform and the reports they expect to prepare.

JACK A. GIBBS
Colonel USAF
Deputy Director

PCS/DCI/RJS/eam
